Sir John Foster Q.C.,M.P.

Temple.E.C.4.

Dear John,

Mr.Zucker rang me up this morning and asked me to write this letter to you regarding the "Daniel picture".

Up to the time it was sold, this picture, to my personal knowledge, had been hanging in the board room of Whitehall Securities Corp. at 47,Parliament Street,S.W.1, since 1936.

As far as I have been able to find out there is no written record of where the picture came from, but it has always been generally known by the older members of the staff at Whitehall Securities that the picture was acquired by the first Lord Cowdray probable some time just after the first World War. How the picture came to be in the possession of Whitehall Securities is not known, but as this company forms part of the Pearson interests, it no doubt was handed over to it at some time or other by the then Lord Cowdray.

I am afraid this information is rather sketchy, but it is all I have been able to obtain.

I hope it will be of some use to Mr.Zucker.

sgd. Miles Wyatt.
